Jack Fairweather – Solicitor at Fairweather Law discusses their experience and results after having their new website built by Conscious.

The Results

“So far the feedback has been amazing; everyone has been really positive about the new look and feel of the website. We’ve even had people email us to say how much they like the new branding!”

Would I recommend Conscious?

“Yes, Conscious took care of everything. We put all our trust in them and they didn’t disappoint.”

The Solution

“Conscious did everything. Jasmine (our project manager) guided us through and clearly explained what our current website lacked and how we could improve. They came up with good looking designs for a logo, business cards and the website. It was an all-encompassing service.

All that was required of us was a brief explaining what our clients expected from us; the whole site was based around our clients needs. Jasmine took it from there.”

The Problem

“Our website was purely functional and minimalist. It was dated, square and not interactive in the slightest. We wanted a website that wasn't too corporate to fit in with our brand. We aim to be friendly and approachable.”

3 Words to describe Conscious and the journey:

- **Structured:** We had to have everything done in six weeks. Conscious ensured that deadlines were met.
- **Friendly:** Everyone had a friendly attitude. I worked closely with Jasmine, Andrew, Kayleigh and Tracey and they were all really positive.
- **Flexible:** I changed my instructions at least five times, including a name change two days before the site went live. Conscious dealt with it without any fuss.
