Social Media Marketing Service

As a law firm, adding social media into your marketing mix might not be second nature, but the influence of social media today is too great to ignore. Consider the numbers below - do you think at least some of these people might be your clients or prospects?

How it works

When we talk to law firms often it's not a lack of appetite that stops them taking advantage of social media, but a combination of time & skill

Time + **Skill** + **Knowledge** = **Great Social media**

We can help you, with our expert Social Media Marketing Service. This service helps underpin your social media activity allowing your team to focus on other activities.

We take a holistic approach to your social media output. We make sure that the foundations of your social media channels are solid, by firstly undertaking a full social media audit (Stage 1). In Stage 2 we start building your following (if this is required). In Stage 3, we will make our recommendations and discuss with you which of the 3 ongoing packages will best suit your needs. We provide a combination of Tweets, Facebook posts, LinkedIn updates and blog posts on your behalf, mirroring your preferred tone of voice. You can choose from a selection of packages that range from Presence or Engagement to a completely Bespoke offering to suit your firm's needs.

We will apply the same editorial rigour to this service as we have done to the Legal Content service we have provided for over ten years. You can trust us to avoid content that will damage your brand; the complete opposite - we will be sourcing and publishing content that will interest your followers/connections and encourage them to engage with your firm.

The number of
monthly active
users on each
of the main
social media
platforms...

Facebook = **2.38bn**
Twitter = **330m**

LinkedIn = **590m**

...do you think
some of them
might be your
clients?

So why not do
ALL your social
media yourselves?
Consider the
following points:-

- **COST** - Assume the fully loaded hourly cost of a junior marketing/senior admin person is £20/hour, you get just 30 mins of social media activity per day compared to our package. That's not much.
- **KNOWLEDGE** - An agency like us has more "brain power". We live and breathe social media. Hiring us to underpin your social media activity is like hiring a team of people!
- **RESPONSIBILITY** - When the employee handling your social media is away, we're still working on your behalf.
- **FORWARD THINKING** - We breed social media nerds. Not only are we expert at what to do in social media land today, we're constantly looking around the corner.
- **NEW TECHNOLOGY** - At each level of service we will provide high quality, engaging content that will underpin your own social media activities. For content examples and to discuss this service further, please contact your Account Manager, or give us a call.
